

BIOBACT scent

green-Effective® Biotechnological odour eliminator

■ Eco-efficient performance with eco-effective product design

User and environmental safety at the highest cleaning performance

- 100% used rHDPE bottles
- Complete abandonment of toxic and harmful materials
- Outperforms other products at lower use concentration

Sustainable development and production

EMAS:

- Continuous improvement of environmental performance
- Annual sustainability report
- Energy and water
- management
- Social Fairness

DIN ISO 14001:

 Continuous improvement in reducing waste and CO2 emissions, and saving of energy, water and material consumption

ISO 50001:

 Continuous improvement of energy management: performance, efficiency, security, use and consumption

A.I.S.E.-Charter:

 Safe and sustainable manufacturing of cleaning products

DIN ISO 9001:

- Continuous improvement of management processes and customer satisfaction
- Established quality management system in product development and production

Complete biodegradability

- BIOBACT scent with all its ingredients is totally biodegradable and has proven this important property in an accredited mineralization test according to OECD 302 B standard*
- *for more information please visit www.wmprof.com

Intensive use of renewable resources – continuous increase of the reutilisation score

- Production under extensive use of renewable raw materials and energy using to 100% hydroelectric, solar and geothermic power
- Production widely independent of crude oil: 94% of organic carbon processed in BIOBACT scent originates from renewable plant resources which enables a production that is widely independent of crude oil
- Active water stewardship maintaining an own fresh and waste water treatment

Ingredient declaration

For the ingredients list, please see the Safety Data Sheet

Traditional German quality - driving your durable business development

- More than 25 years pioneer in sustainable product development
- Smart hygiene solutions ensuring profitable growth
- Trusted brand

Professional user training and on-site support for Sustainable Hygiene Solutions

- Comprehensive knowledge transfer through qualified cleaning consultants
- Customized hygiene plans and cleaning recommendations optimizing your business and cleaning procedures
- Increased service value and strengthened company reputation

BIOBACT scent

Application and Dosing

Dose in relation to application and degree

of soil. Follow below

Shake before use.

Intensive drain

instructions

Discretive Biotechnological odour eliminator

■ Effective odour control ■ Long-lasting cleanliness ■ Material friendly

Product profile

- Instead of simply masking bad odours, BIOBACT scent effectively breaks down organic substances, such as urine and food residues which are the root cause of foul-smelling environment. The added perfume leaves a nice and pleasant scent in the room.
- Thanks to long-lasting microbial activity, BIOBACT scent even prevents the new build-up of organic dirt on a regular use
- By the complete abandonment of hazardous ingredients, BIOBACT scent is a material friendly odour eliminator, and therefore versatile in use (e.g. sanitary, old people's homes, restaurants, hotels, etc.).
- Made of 100% natural microorganisms, BIOBACT scent is safe in use and safe for the environment.
- BIOBACT scent comes in a highly sustainable bottle made of 100% recycled plastic sourced from the "Yellow bag" (post-consumer recyclate).

Area of application

- Ideally suitable for all water resistant floorings, the area around public toilets, urinals, bathtubs, drains but also for textiles, furniture, and other surfaces with odour causing soiling.
- Suitable for scrubber driers.
- Shake well before use.
- NOTE: Do not mix with disinfectants, bacteriological products, strongly alkaline or acid liquids. This will significantly reduce its effect.

Product safety, storage and environmental instructions

Safety: For professional use only. Keep away from children. Do not mix with other products. Test material compatibility before use. For further information, see Safety Data Sheet.

Storage: Store at room temperature in the original container. The storage and transport temperature of BIOBACT scent must not exceed 30°C. Keep from freezing.

Environmental: Only give completely emptied packaging in the recommended waste container. Proper dosing saves costs and minimizes environmental impact. Compared to other products only a small amount is required.

and sanitary odour control: Add 50ml 1-2 times per week in drains and toilets with last working step. Do not flush afterwards.

25% - conc.

Drain and odour control: Make sure the surface is dry. Dose generously.

Spot treatment: Remove physical residues. Apply generously so that the area is wetted. Allow solution to work.
